OBJECTIVE

Entry-level Software Engineer with strong Java, OOPS, and DBMS fundamentals, focused on buildin enterprise applications.

EDUCATION

B.Tech in Computer Science (IoT & Cybersecurity) *2022 – 2026*

MVGR College of Engineering, Vizianagaram CGPA: **7.2/10**

Intermediate (MPC) *2020 – 2022*

Gayatri Junior College, Gotlam Percentage: **90%**

SSC *2019 – 2020*

Percentage: **97%**

TECHNICAL SKILLS

Programming: Java, C
Core CS: OOPS, Data Structures, DBMS, Rest APIs
Frameworks : Spring Boot
Web Development: HTML, CSS, JavaScript
Databases: MySQL
Tools & Platforms: Git, Docker, VS Code, Eclipse
Operating Systems: Windows, Linux (Ubuntu/Kali)
Soft Skills: Communication, Teamwork, Problem Solving

PROJECTS

Pharmaceutical Product Verification System

- Developed a blockchain-based pharmaceutical product verification system to detect and prevent counterfeit medicines across the supply chain.
- Implemented Ethereum smart contracts to store tamper-Proof product transactions and ensure end-to-end traceability.
- Integrated React.js, MetaMask, Ethers.js, and Solidity to enable secure blockchain interaction and real-time product verification.
- Generated unique product identities and QR codes for authentication, allowing consumers to verify product authenticity instantly.

- Designed role-based access for manufacturer, distributer, retailer, and consumer to ensure secure supply chain management.

Secure File Storage System - GitHub

- Designed a secure file storage solution using Python and AES encryption to protect sensitive data.
- Implemented encryption and decryption functionality with user-defined secret keys.
- Ensured secure handling of files by applying fundamental data security and cryptography concepts.
- Built a simple and intuitive interface, focusing on usability and clean backend logic.

CERTIFICATIONS

Java Full Stack – Wipro
IT Essentials – Cisco Networking Academy
Introduction to Prompt Engineering – edX
CSS, Bootstrap and JavaScript – Udemy
Learn PHP and MySQL for Web Development – Udemy
